PRESS RELEASE

Informing – we know and protect the bats

Environmental Protection Agency of Bihor County - as beneficiary of the project “**Bat conservation in Pădurea Craiului, Bihor and Trascău Mountains**”, LIFE+ Nature and Biodiversity, co-financed by the Life Programme of the European Union, **installed warning signs at 40 caves in Bihor, Cluj and Alba Counties**. The concept of the panels is accessible and easy to understand for peoples of all ages, even for the smallest visitors of these caves – the children - future generations of specialists: biologists, ecologists, speleologists, nature lovers or simply tourists. These panels explain - in pictures - appropriate behavior rules in the underground, rules of common sense to visit a cave - without disturbing the creatures in it.

Installing these panels will help to inform, raise awareness and educate the general public on the caves protection and their most important inhabitants – the bats.

More information on this project are available on www.batlife.ro
